

# Yasuhiro Sato, Ph.D.

Last update on 15 November 2023

---

## Curriculum Vitae

First Name: Yasuhiro

Family Name: Sato

Birthday: 7 April 1988

Sex: Male; Gender: Male; Pronoun: he/him

Nationality: Japan

Current affiliation: Department of Evolutionary Biology and Environmental Studies, University of Zurich

Institutional address: Winterthurerstrasse 190, 8057 Zurich, Switzerland

Tel: +41 44 635 49 86; Fax: +41 44 634 82 04

Office: Y13-J-68 (Evolutionary and Ecological Genomics Group)

E-mail: [yasuhiro.sato@uzh.ch](mailto:yasuhiro.sato@uzh.ch) (work); [yassato36c@outlook.com](mailto:yassato36c@outlook.com) (personal)

ORCID: 0000-0002-6466-723X

Google scholar citations: <https://scholar.google.co.jp/citations?user=HbrGYr8AAAAAJ&hl=en>

Personal website: <https://yassato.github.io/>

## Education

- 23 March 2016. PhD in Science (Biosciences), Center for Ecological Research, Graduate School of Science, Kyoto University, Japan (supervisor: Prof. Dr. Hiroshi Kudoh) [PhD defended on 28 January 2016]
- 25 March 2013. MSc in Science (Biosciences), Center for Ecological Research, Graduate School of Science, Kyoto University, Japan (supervisor: Prof. Dr. Hiroshi Kudoh)
- 24 March 2011. BSc in Agriculture (Bioresource Sciences), Laboratory of Insect Ecology, Faculty of Agriculture, Kyoto University, Japan (supervisor: Assistant Prof. Dr. Takayoshi Nishida)

## Employment history

- April 2021–Present. Oberassistent (Senior research and teaching assistant) at the Department of Evolutionary Biology and Environmental Studies, University of Zurich, Switzerland (PI: Prof. Dr. Kentaro K. Shimizu)
- October 2017–March 2021. Independent Group Leader of Precursory Research for the Embryonic Science and Technology (PRESTO) program of the Japan Science and Technology Agency (JST) at Ryukoku University, Japan (host: Associate Prof. Dr. Atsushi J. Nagano)
- April 2016–September 2017. Independent Postdoctoral Fellow of the Japan Society for the Promotion of Science (JSPS) at Ryukoku University, Japan (host: Senior Lecturer Dr. Atsushi J. Nagano)
- April 2015–March 2016. Research Fellow of the Japan Society for the Promotion of Science (JSPS) for PhD students at Kyoto University, Japan (host: Prof. Dr. Hiroshi Kudoh)
- June 2013–March 2014. Research Assistant at the Center for Ecological Research, Kyoto University, Japan

## Visiting and guest position

- October 2017–Present. Guest researcher of Research Institute for Food and Agriculture, Ryukoku University, Japan
- August 2017–Present. Affiliated member of University Research Priority Program for Global Change and Biodiversity (URPP GCB), University of Zurich, Switzerland <https://www.gcb.uzh.ch/en/aboutus/people.html>
- June 2016–September 2016. Visiting postdoctoral researcher, Evolutionary and Ecological Genomics Group (Shimizu Lab), University of Zurich, Switzerland
- April 2016–March 2020. Affiliated scientist of the Center for Ecological Research, Kyoto University, Japan

## Approved funding and fellowships

1. November 2023–October 2024. ‘Using open data to reveal the genomic basis that underpins positive plant-plant interactions’, Spark rapid funding, Grant ID:CRSK-3\_221418, Swiss National Science Foundation (SNSF), Switzerland (a single lead applicant; total budget 100,000 CHF = 103,616 EUR upon the currency rate of the starting date)
2. April 2023–March 2027. ‘Joint analysis of plant-plant interactions using field GWAS and RNA-Seq’, Grant-in-aid for Early-career Scientists, Grant ID:JP23K14270, Japan Society for the Promotion of Science (JSPS), Japan (a single lead applicant; direct cost 3,600,000 JPY + indirect cost 1,080,000 JPY = 32,116 EUR upon the currency rate of the starting date)
3. April 2020–March 2023. ‘Theoretical consideration of plant biodiversity effects driven by inter-genotypic interactions’, Grant-in-aid for Early-career Scientists, Grant ID:JP20K15880, Japan Society for the Promotion of Science (JSPS), Japan (a single lead applicant; direct cost 3,200,000 JPY + indirect cost 960,000 JPY = 35,049 EUR upon the currency rate of the starting date)
4. October 2017–March 2021. ‘Large-scale omics approach towards a pest control by mixed planting’, PRESTO project, Grant ID:JPMJPR17Q4, Japan Science and Technology Agency (JST) (a single lead applicant; direct cost 40,000,000 JPY + indirect cost 12,000,000 JPY = 391,418 EUR upon the currency rate of the starting date + group leader’s own salary) [https://www.jst.go.jp/kisoken/presto/en/project/1112074/1112074\\_26.html](https://www.jst.go.jp/kisoken/presto/en/project/1112074/1112074_26.html)
5. April 2016–September 2017. ‘Genome-wide association study and prediction of pest communities on natural accessions of the model plant species’, Research Fellowships for Postdoctoral Researcher, Grant ID:JP16J30005, Japan Society for the Promotion of Science (JSPS) (a single lead applicant; direct cost 2,700,000 JPY + indirect cost 810,000 JPY = 27,449 EUR upon the currency rate of the starting date + fellow’s own salary)
6. April 2015–March 2016. ‘A test of the mechanism maintaining plant defense polymorphism in a wild *Arabidopsis*’, Research Fellowships for PhD Students, Grant ID:JP15J00400, Japan Society for the Promotion of Science (JSPS) (a single lead applicant; direct cost 1,200,000 JPY + indirect cost 360,000 JPY = 12,101 EUR upon the currency rate of the starting date + fellow’s own salary)

## Mentoring

Name	Degree	Program	Role	Output
Lukas Rohr	Master student	MSc in Biology at the University of Zurich	Supervisor	<i>None</i>
Dr. Chongmeng Xu	PhD student (defended on 17 April 2023)	URPP GCB program of the University of Zurich	Co-supervisor (Leitung der Dissertation)	Xu & Sato et al. (2023) RSOS; Sato et al. (2023) Evolution
Elina Jansone	Undergraduate	Lab rotation at the University of Zurich	Main supervisor	<i>None</i>

Name	Degree	Program	Role	Output
Kazuya Takeda	Master of Science	PRESTO project of JST	Daily supervisor as an employer	Sato, Takeda & Nagano (2021) G3
Silvija Milosavljevic	Undergraduate	BUSS program at the University of Zurich	Co-supervisor with PI	Shimizu-Inatsugi et al. (2021) Plant Spec. Biol.
Dimitri Anderfuhren	Undergraduate	BIO378 program of the University of Zurich	Co-supervisor with PI	<i>None</i>

## Teaching experience

1. September 2021–Present. BIO373: Next Generation Sequencing for Evolutionary Functional Genomics, University of Zurich, Switzerland (Role: course management, co-instructor, and examiner; No. of participants = 15-20)
2. May 2022. BIO334: Practical Bioinformatics, University of Zurich, Switzerland (Role: temporal co-instructor during a sabbatical absence of PI; No. of participants = ca. 25)
3. April 2019–May 2019. External Lecturer of Basic Genetics, Faculty of Agriculture, Ryukoku University, Japan (Role: 90-min. lectures  $\times$  five times for a liberal art course in Japanese; No. of participants = ca. 50)
4. July 2018–August 2018. International Biology Undergraduate Summer School (BUSS) 2018, University of Zurich, Switzerland (Role: supervision of undergraduate student's fieldwork and presentation; No. of participants = 1)
5. July 2017–August 2017. BIO378: Research Practical in Evolutionary Biology and Systematics, University of Zurich, Switzerland (Role: supervision of undergraduate student's fieldwork, data analysis, and report writing; No. of participants = 1)
6. September 2013–January 2015. External Teaching Assistant of Programming Practical, Faculty of Science and Technology, Ryukoku University, Japan (Role: teaching assistant of R language; No. of participants = 5-10)

## Panels, boards, and reviewing activities

1. January 2019–Present. Editorial board member of the Society for the Study of Species Biology, Japan
2. April 2020–December 2021. Reviewing editor of *Journal of Evolutionary Biology*
3. December 2022. Organizing committee member of the 52nd symposium of the Study of Species Biology, Japan, <https://sites.google.com/view/sssb2020shiga>
4. November 2016. Organising committee member of 5th Japan-Taiwan Ecology Workshop, Kyoto, Japan, <https://sites.google.com/site/jtecolw5th/>
5. Total 45 peer-review activities verified by Publons (WoS ResearcherID), <https://www.webofscience.com/wos/author/rid/N-7939-2013> (Journal of Evolutionary Biology<sup>12</sup>; Plant Species Biology<sup>6</sup>; Rice<sup>4</sup>; Ecological Research<sup>3</sup>; Entomological Science<sup>3</sup>; Plant Biology<sup>3</sup>; Ecology<sup>2</sup>; Ecology and Evolution<sup>2</sup>; Biological Journal of the Linnean Society<sup>1</sup>; Frontiers in Plant Science<sup>2</sup>; Frontiers in Conservation Science<sup>1</sup>; Functional Ecology<sup>1</sup>; F1000 Research<sup>1</sup>; Horticulture Research<sup>1</sup>; Plant Cell & Environment<sup>1</sup>; Plant-Environment Interactions<sup>1</sup>; Trends in Ecology and Evolution<sup>1</sup>; retrieved on 5 August 2023) and Japanese book chapters<sup>4</sup>.

## Active memberships in scientific societies

1. American Society of Naturalists (Permanent membership since October 2017)
2. Ecological Society of Japan (October 2011–Present)
3. Society for the Study of Species Biology (December 2010–Present)
4. European Society for Evolutionary Biology (April 2020–Present)
5. The Japanese Society of Plant Physiologists (January 2018–Present)

## Organization of conferences

1. December 2019. **Sato Y**, Muranaka T. Cutting-edge technology of plant omics and phenotyping (in Japanese). The 51st Symposium of the Society for the Study of Species Biology, Miyazaki, Japan
2. March 2015. Sakata Y and **Sato Y**. Overview of evolutionary ecology of plant-herbivore interactions (in Japanese). Workshop 12: The 62nd Annual Meeting of the Ecological Society of Japan, Kagoshima, Japan

## Prizes and awards

1. 2 February 2018. Inoue Research Award for Early-career Scientists, Inoue Foundation for Science, Japan
2. 3 December 2016. Kataoka Award for Early-career Researchers, The Society for the Study of Species Biology, Japan
3. 2 March 2016. Ikushi Prize for Outstanding PhD Students, Japan Society for the Promotion of Science (JSPS), Japan [https://www.jsps.go.jp/english/e-ikushi-prize/awards\\_fy2015\\_01.html](https://www.jsps.go.jp/english/e-ikushi-prize/awards_fy2015_01.html)
4. April 2011–March 2015. Refund Exemption for Excellent Students, JASSO Scholarship, Japan

## Career breaks

*None*

## Personal skills

### License

1. Swiss driver license
2. Japanese diver license

### Computer languages

1. R (package developer level)
2. Python (basic level)
3. Bash (basic level)

### Natural languages

1. English (proficient)
2. Japanese (native speaker)
3. German (A1-level learner)
4. Chinese (basic level learned during the liberal art course in Kyoto University)

## Conference contributions

1. **Sato Y**, Shimizu-Inatsugi R, Takeda K, Nagano AJ, Shimizu KK. Genome-wide neighbor effects predict genotype pairs reducing herbivory in mixed planting. *Biodiversity Convention - From Science to Implementation*, Monte Verita, Ascona, Switzerland (27 June 2023, talk)
2. **Sato Y**, Shimizu-Inatsugi R, Takeda K, Nagano AJ, Shimizu KK. Keystone pairs of *Arabidopsis* accessions increase plant resistance to field herbivory. In Concurrent 15: *Arabidopsis* relatives from laboratories to natural fields (organized by Prof. K.K. Shimizu and H. Kudoh). *The 33rd International Conference on Arabidopsis Research (ICAR2023)*, Chiba, Japan (7 June 2023, talk)
3. **Sato Y**, Shimizu-Inatsugi R, Takeda K, Nagano AJ, Shimizu KK. Keystone genotype pairs increase plant resistance to herbivory. *Gordon Research Conference: Plant-Herbivore Interaction 2023*, Ventura, CA, USA (2 March 2023, poster)
4. **Sato Y**, Shimizu-Inatsugi R, Takeda K, Nagano AJ, Shimizu KK. Keystone genotype pairs increase population-level resistance to herbivory. *SwissPLANT 2023 Symposium*, Les Diablerets, Switzerland (23 January 2023, talk)
5. **Sato Y**, Shimizu-Inatsugi R, Nagano AJ, Shimizu KK. Neighbor GWAS: incorporating neighbor genotypic identity in genome-wide association study of field-grown *Arabidopsis thaliana*. ‘From place to space - Tracing the spatial dimension of plant sciences’ by *Plant Science Center Symposium 2022*, P30, ETH Zurich, Switzerland (7 December 2022, poster)
6. **Sato Y**, Takahashi Y, Xu C, Shimizu KK. Detecting frequency-dependent selection using a genetic marker regression of fitness components. In: S24 ‘Progress and Prospects in Adaptation Genomics’. *The 2022 Congress of the European Society for Evolutionary Biology*, Prague, Czech Republic (18 August 2022, reviewed talk)
7. **Sato Y**, Nagano AJ, Shimizu KK. Genomics of within-species mixed planting against insect herbivores. In: MON3-b ‘From the species to the individual: investigating plant diversity on the scale that matters most’ (organized by Drs. P. Villa and M.C. Schuman). *World Biodiversity Forum 2022*, Davos, Switzerland. (29 June 2022, reviewed talk) <https://www.worldbiodiversityforum.org/>
8. Kuzuhara H, Takimoto H, **Sato Y**, Kanagawa A. Insect pest detection and identification method based on deep learning for realizing a pest control system. *The Society of Instrument and Control*

**Engineers (SICE) Annual Conference 2020.** Chiang Mai, Thailand [changed into an online meeting due to COVID-19] (25 September 2020, talk)

9. **Sato Y.** Using personal legacy data to reveal the molting phenology of Japanese cicadas. In: S19 ‘Ongoing Cicada Research in East Asia’ (organized by Prof. J. Yikweon), **The 8th EAFES International Congress**, Nagoya, Japan (April 2018, invited talk)

*And the other 7 English posters and 35 contributions in Japanese (4 invited talks, 10 talks and 21 posters)*

## Outreach activities

1. **Sato Y**, Sato S. (2016) 12-years cicada monitoring. Proceedings of the Natural History Museum Mt. Fujiwara 38:1–5 (in Japanese)  
-> *Plain-text Japanese summary of Sato and Sato (2015) Annals of the Entomological Society of America 108(4):494–500.*
2. Teaching assistant for making a botanical specimen at Japanese School in Zurich (Japanische Schule in Zuerich), Uster, Switzerland. (1 July 2023, in Japanese)

## General contributions to science

1. Hosting arrangement of the BEEES seminar at the Department of Evolutionary Biology and Environmental Studies, University of Zurich, Switzerland (4 November 2021): ‘Plant-insect chemical communication: an information theory perspective’ by Dr. Pengjuan Zu (host: **Sato Y**)
2. External seminar at the Gregor Mendel Institute of Molecular Plant Biology, Austria (25 June 2019): ‘Neighbor GWAS: incorporating neighbor identity into *Arabidopsis*-herbivore interaction’ by **Sato Y.** (host: Dr. Magnus Nordborg)
3. Discussion facilitator at ‘Evolutionary Community Ecology 2018 workshop’, Kyoto University, Kyoto (25 September 2018), Japan (organized by Dr. Kohmei Kadowaki and Prof. Dr. Takeshi Miki)
4. External seminar at the Department of Evolutionary Biology and Environmental Studies, University of Zurich, Switzerland (9 August 2018): ‘Neighbor effects enhance anti-herbivore defense in *Arabidopsis*’ by **Sato Y.** (host: University Research Priority Program of Global Change and Biodiversity)

## Preprint

1. **Sato Y\***, Shimizu-Inatsugi R, Takeda K, Schmid B, Nagano AJ\*, Shimizu KK\*. (2023) Genome-wide neighbor effects predict genotype pairs that reduce herbivory in mixed planting. **bioRxiv** <https://doi.org/10.1101/2023.05.19.541411>
